

But, note that [VA SB 641](#) appears dead this year; it was continued to 2021 in the Virginia Senate Judiciary Committee yesterday. VA HB 473 was also continued to 2021 in the Virginia Assembly's Communications, Technology and Innovation.

As far as I can tell right now, that **leaves the leading candidates for passage this year:**

1. **New York** (Private right of action for whole bill!);
2. **Washington**; and
3. The **California Privacy Rights Act** ("CPRA"; MacTaggart's ballot initiative).
